

Remarks of Dr. James for the last instal-
ment of the Code (section 907 up to the end):

Dr. James having withdrawn almost all his observations, it is decided:

in section 944, to say "But the insurer has to return to the assured or to his heirs";

in section 953, to cancel it;

in section 956, to cancel the last sentence (in order to follow exactly the Swiss reference);

in section 1129, to say "A contract for the organization of a partnership or company";

in section 1318, to say "A shareholder who has in a resolution a special interest cannot vote on such resolution" (Cf. Japanese Commercial Code and French law 1867);

consequently in section 1231, to say "A promoter or subscriber cannot take part in the vote if he has in the question a special interest".

in section 1401, "may" instead of "can".

As to Penalties, there can be no changes in the Present Code; but, on proposal of Phya Chinda, it is decided that the question of transfer of the Penalties into the Penal Code shall be reconsidered when the latter will be revised.
