

charge are entitled to make on the properties of any person all the operations which may be necessary for a complete survey, such as to take measurements, to put up stakes in the ground, to collect samples of stones, sand or other material, etc. provided that the owners or lawful occupants of such properties shall receive compensation for any injury resulting from such operations of survey.

76. — When the final survey, or a part thereof, is completed, a special decree shall authorize expropriation and state :

- 1) the purpose for which such expropriation is authorized,
- 2) the lands and other immovables subject to expropriation and the places or districts where they are situated,
- 3) the Ministry or Department in charge of the expropriation.

A map or plan showing the boundaries of the land required for national use or for the construction of public works and the boundaries of each separate piece of land partly or wholly subject to expropriation shall be annexed to such decree.

77. — The decree shall be published in the Government Gazette.

78. — A certified copy of the decree with the map annexed thereto shall be deposited :

- 1) at the offices of the Ministry or Department in charge ;
